

**BUSINESS RESPONSIBILITY & OECD COMPLIANCE REPORT FOR THE YEAR 2024**  
**DATED: 22<sup>nd</sup> January, 2025**

**Section A: General Information about the Company:**

Primestar's journey began in the early 1990s when its founders, Raj Kothari and Priti Parikh, moved to Antwerp, Belgium, the heart of the global diamond trade.

Early on, Raj established a strong reputation in the industry, specializing in supplying diamonds to luxury brands. He adopted a customer centric approach grounded in honesty, consistency in quality and a high level of service. Meanwhile, Priti devoted herself to raising their children, instilling in them core values such as integrity, accountability, and trust to help them make a positive impact on the world. She noticed the industry was male dominated and her unique perspective as a woman and a consumer would add value across the supply chain.

With this vision, Priti set out to build a sustainable diamond business for the future, leveraging Raj's expertise and deep-rooted relationships. In 2016, Priti became a HRD-certified gemmologist and Primestar was born.

Primestar is a dynamic, second-generation business, geared to stand the test of time. We are one of the only diamond companies led by a woman. Our progressive approach, along with our core values, drives us to invest in sustainability as part of our growth and not a consequence of it.

The next generation, Pranav, and Rishabh Kothari, joined the business in 2017, bringing a fresh perspective centred on technological innovation. They introduced a new core value to Primestar: transparency. Today, we utilize a state-of-the-art ERP system to meticulously track the flow of goods through our pipeline, reinforcing our commitment to ethical sourcing and ESG standards. From inception, Primestar has been dedicated to creating a positive impact on its ecosystem and beyond.

Primestar has rapidly become a trusted partner to leading luxury brands worldwide as a one-stop supplier, with comprehensive diamond solutions reinforced by best practices, transparency, and innovation at every stage of the diamond supply chain.

**BUSINESS RESPONSIBILITY & OECD COMPLIANCE REPORT FOR THE YEAR 2024**
